Mandal, E. G. Dist. (A.P.)

ABOUT COLLEGE

West Godavari Institute Of Science and Engineering
– A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

Courses Offered:

B-Tech
E.C.E
C.S.E
MECH
AI&DS
M.B.A

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

OBJECTIVES OF PROGRAM

Internet of Things (IoT) is a revolutionary concept which involves a combination of various advanced technologies for enabling better communication and automation. It is a network of physical devices, vehicles, home appliances, and other items embedded with Electronics, software, sensors, actuators, and network connectivity which are linked to create smart environments. IoT significantly reduces human effort and provide efficient operation and control.

Topics to be Covered:-

- Introduction to IoT
- Architecture, Elements, and Sensors -IoT
- Communication Protocols
- IoT Cloud and Security
- Block chain and IoT
- Role of IoT in Industry and Society
- Real-Time Applications of IoT
- Emerging Trends
- Research Directions

Resource Person

Program Coordinator	Mrs. P.SHEELA
Organized By	Department of Computer Science Engineering
Venue	West Godavari Institute Of Science And Engineering

Program Objective:

Internet of Things (IoT) is a revolutionary concept which involves a combination of various advanced technologies for enabling better communication and automation. It is a network of physical devices, vehicles, home appliances, and other items embedded with Electronics, software, sensors, actuators, and network connectivity which are linked to create smart environments. IoT significantly reduces human effort and provide efficient operation and control.

Topic covered:

- Introduction to IoT
- Architecture, Elements, and Sensors -IoT
- Communication Protocols
- IoT Cloud and Security
- Block chain and IoT
- Role of IoT in Industry and Society
- Real-Time Applications of IoT
- Emerging Trends
- Research Directions

Faculty response:

All the faculty are impressed with the new advancement in the surveying techniques and forward to learn the total station and enthusiastic to teach the students about these new techniques.

ABOUT COLLEGE

West Godavari Institute Of Science and Engineering
– A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

Courses Offered:

B-Tech

E.C.E

C.S.E

MECH

AI&DS

M.B.A

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

OBJECTIVES OF PROGRAM

Industrial automation is the use of control devices such as PC/PLCs/PACs to control industrial processes and machinery by replacing as much as possible labour intervention and dangerous assembly operations with automated ones. In industrial control a wide number of process variables such as temperature, flow, pressure, distance, and liquid levels can be sensed simultaneously. All these variables are acquired, processed and controlled by microprocessor systems or PC based data processing controllers. .

Programmable Logic Controller (PLC) is a digital computer interface used for the automation of various electro-mechanical processes in industries. The program is written on a computer and is downloaded to the PLC via cable. These loaded programs are stored in non-volatile memory of the PLC. During the transition of relay control panels to PLC, the hard wired relay logic was exchanged for the program fed by the user.

visual programming language known as the Ladder Logic is mostly used to program the PLC.

Supervisory Control And Data Acquisition (SCADA) is a control system architecture that uses computers, networked data communications and graphical user interfaces for high-level process supervisory management. This workshop aims to provide good opportunity for the industry, faculty members and students to gain basic knowledge about industrial automation applications using PLC and SCADA.

Topics to be Covered:-

- Introduction to Industrial Automation
- Evolution of Industrial Automation
- Role of Sensors in Automation
- Human Machine Interface
- Introduction to Programmable Logic Controllers
- Basics of SCADA

Real-time Industrial Automation Application

Organized By	Mechanical Department
Venue	West Godavari Institute Of Science And Engineering

Program Objective:

Industrial automation is the use of control devices such as PC/PLCs/PACs to control industrial processes and machinery by replacing as much as possible labour intervention and dangerous assembly operations with automated ones. In industrial control a wide number of process variables such as temperature, flow, pressure, distance, and liquid levels can be sensed simultaneously. All these variables are acquired, processed and controlled by microprocessor systems or PC based data processing controllers. .

Programmable Logic Controller (PLC) is a digital computer interface used for the automation of various electro-mechanical processes in industries. The program is written on a computer and is downloaded to the PLC via cable. These loaded programs are stored in non - volatile memory of the PLC. During the transition of relay control panels to PLC, the hard wired relay logic was exchanged for the program fed by the user. A visual programming language known as the Ladder Logic is mostly used to program the PLC.

Supervisory Control And Data Acquisition (SCADA) is a control system architecture that uses computers, networked data communications and graphical user interfaces for high-level process supervisory management. This workshop aims to provide good opportunity for the industry, faculty members and students to gain basic knowledge about industrial automation applications using PLC and SCADA.

WEST GODAVARI INSTITUTE OF SCIENCE AND ENGINEERING

(Approved by AICTE –New Delhi and Affiliated to JNTU – Kakinada)

An ISO 9001 – 2008 Certified College

AVAPADU, PRAKASARAOPALEM – 534112, Nallajerla Mandal, W.G.Dist. (A.P.).

Cell: 9951277789, E-mail: principal.wise@gmail.com , website : www.wise.ac.in

Topic covered:

- Introduction to Industrial Automation
- Evolution of Industrial Automation
- Role of Sensors in Automation
- Human Machine Interface
- Introduction to Programmable Logic Controllers
- Basics of SCADA

Real-time Industrial Automation Applications

Outcome of the program :

At the end of the course, the students will be able to Understand the concept of industrial automation, PLC, HMI, animation screen development and SCADA. Interface PLC and HMI using RS485 communication protocol Design animation screen development Select appropriate relays for industrial need. Analyze PLC wiring, I/O star delta starter and motor forward-reverse wiring

CIRCULAR

This is to inform that West Godavari Institute of Science and Engineering College is organizing
“A one week faculty development program on Research methodology in social science”
from 08-02-2021 to 13-02-2021. All the faculty members of concerned department are requested
register and to attend the program.

ABOUT COLLEGE

West Godavari Institute Of Science and Engineering
– A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

Courses Offered:

B-Tech

E.C.E

C.S.E

MECH

AI&DS

M.B.A

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

OBJECTIVES OF PROGRAM

The discipline of historiography is regarded by many as a social Science and certain areas of historical study are almost indistinguishable from work done in the social sciences. Most historians, however, consider history as one of the humanities. In the United States, focused programs, such as African-American Studies, Latinx Studies, Women, Gender, and Sexuality Studies, are, as a rule, also included among the social sciences, as are often Latin American Studies and Middle Eastern Studies, while, for instance, French, German, or Italian Studies are commonly associated with humanities. In the past, Soviet logy was always considered a social science Discipline, in contrast to Russian Studies,

Topics to be Covered:-

The same impulses that led people in that age to explore Earth, the stellar Regions and the nature of matter led them also to explore the institutions Around them: state, economy, religion, morality, and, above all, human nature itself. It was the fragmentation of medieval philosophy and theory, and, with this, the shattering of the medieval worldview that had lain deep in thought until about the 16th century, that was the immediate basis of the rise of the several strands of specialized social thought that were in time to provide the inspiration for the Social sciences.

Programme Report

Name Of The Programme	A Training Program On Network Applications
Date Of The Programme	06.11.2020
Resource Person Details	K.Priyanka Raman Sr Computer Assistant A.K.R.G Engineering College Nallajarla
Programme Coordinator	K.Hemanth Srinivasarao
Organized By	EEE Department
Venue	West Godavari Institute Of Science And Engineering

Programme Objective:

Computer network applications are network software applications that utilize the internet or other network hardware infrastructure to perform useful functions for example file transfer with in a network. They help us to transfer data from one point to another within the network.

Topic covered:

CDN's, Edge Computing, Wireless Technology, Network Protocols, Network Services, Network Visualizator Open Source Networks.

Outcome of the programme:

All the non teaching staff are impressed with the new techniques and also got awareness about the basic and critical problems that will be faced in both design and practical at construction sites.
