ABOUT DEPARTMENT :

The department of Electronics and Communication Engineering was inaugurated in the year 2008, with in-take of 60 seats and in the year 2009 the no of seats extended to 120. The Electronics and communication engineering program is recognized by All India Council for Technical Education (AICTE)-New Delhi, a statutory body of Government of India and approved by Jawaharlal Nehru Technical University, Kakinada. The Department is known for its esteemed faculty members who are renowned for their path-breaking contributions in the field of electronics and communications. Ambitious is probably an understatement when it comes to proving their mettle, our students let their practical knowledge and theoretical soundness do the talking.

ABOUT COLLEGE :

West Godavari Institute Of Science and Engineering – A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14 -acres campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul.

Program

A Two Weeks Add on Course on **MATLAB WITH IMAGE PROCESSING**

Resource Person :

Mr. M. Krishna,
Asst. Professor, Department of ECE,
WISE.

Venue:

III ECE Class Room,
WISE College

Dates:

06.08.2018 to 18.08.2018

Co - Ordinator:

Mr. L. Sankar,
Asst. Professor,
Department of ECE, WISE
Contact No: 9966226074
Mail ID: sankarlavuri@gmail.com

Objectives:

Data structure stores and organizes a large set of data in computer memory. It ensures the reusability of data efficiently later. Data can be stored logically or mathematically.

Data Structures are fundamentals of any programming language around which a program is built. Python helps to learn the fundamental of these data structures in a simpler way as compared to other programming languages.

In this session the students are able to learn the Data Structures in the Python Programming Language and how they are related to some specific Python Data Types. We will discuss all the in built data structures like list tuples, dictionaries, etc. as well as some advanced data structures like trees, graphs, etc.

Learning Outcomes:

The students should be able to:

1. Examine Python syntax and semantics and apply Python flow control and functions.
2. Create, run and manipulate Python Programs using core data structures like Lists,
3. Apply Dictionaries and use Regular Expressions.
4. Interpret the concepts of Object-Oriented Programming as used in Python.
5. Master object-oriented programming to create an entire python project using objects and classes.

The Department of Electronics and Communication Engineering has organized a Two Week certificate Program on “MATLAB With Image Processing” on 06-08-2018 to 18-08-2018 at WISE College, Prakasaraopalem. Mr.M.Krishna, Assistant Professor at WISE college, has delivered a lecture on Matlab With Image Processing as industrial level and this topic is very helpful for the students. Total 36 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives:

- Implement and test your algorithms easily.
- Develop the computational codes easily.
- Debug easily.
- Use a large database of built in algorithms.
- Process still images and create simulation videos easily.
- Symbolic computation can be easily done.
- Call external libraries.

The Department of Master of Business Administrations has organized a Two Week certificate program on “Effectiveness Of Production and Inventory Management ” on 06.08.2018 to 18.08.2018 at WISE College, Prakasaraopalem. Mr.G.Krishna, Assistant Professor at WISE college, has delivered a lecture on and this topic **Effectiveness of Production and Inventory Management** is very helpful for the students. Total 40 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives:

The objectives of inventory management are:

- To ensure a continuous supply of materials and stock so that production should not suffer at the time of customers demand.
- To avoid both overstocking and under-stocking of inventory.

ABOUT DEPARTMENT :

Our students at the Department of Computer Science Engineering (CSE) prepare for a career that is at the heart of the modern industrial revolution. Steeped in logic, mathematics, and computers, we offer a course that helps students solve some of the toughest engineering and scientific challenges the Society faces today and venture into a promising future.

Our expert faculty and advanced research infrastructure motivate aspiring professionals to pursue CSE at our college and build bright careers in almost any field in engineering and science, from IT and automobiles to space.

ABOUT COLLEGE :

West Godavari Institute Of Science and Engineering – A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14 -acres campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul.

OBJECTIVES:

1. This module aims to introduce the students to some concepts of advanced programming and practice on reusing components. A selected programming language is used such as Java. At the end of this course, the students should be able to write sophisticated Java applications. Upon completion of the course, the student will be able to use the Java language for writing well-organized, Complex Computer programs with both Command line and graphical user interfaces.

LEARNING OUTCOMES:

1. . Develop fully working applications that can be used on cross-platforms.
2. 2.Disambiguate the different structures that a noSQL database may represent.
3. 3.Implement a RESTful backend API for storing and retrieving data via AJAX calls.

The Department of Computer Science and Engineering has organized a Two Week certificate Program on “Advanced Java Programming “ on 03.09.2018 to 15.09.2018 at WISE College, Prakasaraopalem. Mr.G.Raju Assistant Professor at WISE college, has delivered a lecture on Advanced Java Programming at industrial level and this topic is very helpful for the students. Total 70 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives:

This module aims to introduce the students to some concepts of advanced programming and practice on reusing components.

- The course covers Graphical User Interface (GUI) networking, and database manipulation.
- Student will be able to use advanced technology in Java such as Internationalization, and Remote method Invocation

- Student will be able to develop web application using Java Servlet and Java Server Pages technology.
- Student will learn how to work with JavaBeans.

Learning Outcomes:

This module aims to introduce the students to some concepts of advanced programming and practice on reusing components. A selected programming language is used such as Java. At the end of this course, the students should be able to write sophisticated Java applications. Upon completion of the course, the student will be able to use the Java language for writing well-organized, complex computer programs with both commandline and graphical user interfaces.

This Course was very useful to the students and their feedback is positive. The management and Dr.M.Srinivas Rao, Principal of WISE thanked the resource person and participants for making the program successful.

The Department of Science and Humanities has organized a **Two week certificate program on “ SOLID STATE PHYSICS”** from 01.10.2018 to 13.10.2018 at WISE College, Prakasaraopalem. Ms.K.V.V .Satyavathi.Asst.Professor, at WISE college, has delivered a lecture on **SOLID STATE PHYSICS** this topic is very helpful for the students. Total 32 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives Of the Programme:

- Understanding Solid State will also help to understand how instruments such as CT scan, MR imaging, digital camera, photo detectors and many other similar instruments are working.
- The information will also give abilities to people to improve their mind to understand and build new instruments. This field is interring all subjects such as Physics, Chemistry, Medicine, Biology, Pollution and Engineering.
- To understand nanotechnology, we need to understand solid state physics.

Topics Covered:

- Introduction and structure of atoms
- Bonds
- Crystal structures: The space lattice and Unit Cell
- Crystal Systems and Bravais Lattice
- Atomic radius and packing factor
- Miller Indices
- Volume Density

Learning Outcomes:

Understanding the Physics of Solid State will help the students to have a vision on the structure and the behavior of this type of material. In addition, studying the properties of solid material and its applications will let the students understand why this material is very important in a variety of sections.

This Course was very useful to the students and their feedback is positive. The management and Dr.M.Srinivas Rao , Principal of WISE thanked the resource person and participants for making the program successful.

ABOUT DEPARTMENT :

The Department of Mechanical Engineering from the day of its inception, has been taking long strides in the field of science and Engineering. One of the oldest and active Departments anticipated the rapid developments in technology and software and provided the most sophisticated laboratory facilities & excellent infrastructure. The Department has well qualified dedicated enthusiastic teaching & technical staff.

It is a discipline that finds wide scope in emerging areas like CAD, CAM, CIM, Robotics, Mechatronics and Renewable Energy etc. Utilizing these facilities students regularly participate in professional body activities like ASME-HPVC and SAE Baja and win prizes. Students are encouraged to improve their innovative skills

ABOUT COLLEGE :

West Godavari Institute Of Science and Engineering – A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14 -acres campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition. OBJECTIVES:

PLC or Programmable Logic Controller is a computing system used to control electromechanical processes. SCADA stands for supervisory control and data acquisition. It is a type of industrial control system that is used to monitor and control facilities and infrastructure in industries.

SCADA is used to assist in automating and managing industrial processes that have become too complex or cumbersome for human monitoring and control.

LEARNING OUTCOMES:

PLCs act as the physical interfaces between devices on the plant or manufacturing floor and a SCADA or HMI system. PLCs can communicate, monitor, and control complex automated processes such as conveyors, temperature control, robot cells, and many other industrial machines.

ABOUT DEPARTMENT :

Our students at the Department of Computer Science Engineering (CSE) prepare for a career that is at the heart of the modern industrial revolution. Steeped in logic, mathematics, and computers, we offer a course that helps students solve some of the toughest engineering and scientific challenges the Society faces today and venture into a promising future.

Our expert faculty and advanced research infrastructure motivate aspiring professionals to pursue CSE at our college and build bright careers in almost any field in engineering and science, from IT and automobiles to space.

ABOUT COLLEGE :

West Godavari Institute Of Science and Engineering – A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14 -acres campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition. West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul.

Objectives:

Data structure stores and organizes a large set of data in computer memory. It ensures the reusability of data efficiently later. Data can be stored logically or mathematically.

Data Structures are fundamentals of any programming language around which a program is built. Python helps to learn the fundamental of these data structures in a simpler way as compared to other programming languages.

In this session the students are able to learn the Data Structures in the Python Programming Language and how they are related to some specific Python Data Types. We will discuss all the in-built data structures like list tuples, dictionaries, etc. as well as some advanced data structures like trees, graphs, etc.

Learning Outcomes:

The students should be able to:

1. Examine Python syntax and semantics and apply Python flow control and functions.
2. Create, run and manipulate Python Programs using core data structures like Lists.
3. Apply Dictionaries and use Regular Expressions.
4. Interpret the concepts of Object-Oriented Programming as used in Python.
5. Master object-oriented programming to create an entire python project using objects and classes.

ABOUT DEPARTMENT :

The department of Electronics and Communication Engineering was inaugurated in the year 2008, with in-take of 60 seats and in the year 2009 the no of seats extended to 120. The Electronics and communication engineering program is recognized by All India Council for Technical Education (AICTE)-New Delhi, a statutory body of Government of India and approved by Jawaharlal Nehru Technical University, Kakinada. The Department is known for its esteemed faculty members who are renowned for their path-breaking contributions in the field of electronics and communications. Ambitious is probably an understatement when it comes to proving their mettle, our students let their practical knowledge and theoretical soundness do the talking.

The Department of Electronics and Communication Engineering has organized a Two week certificate Program on “Advances in RADAR Systems” on 11-03-2019 to 23-03-2019 at WISE College, Prakasaraopalem. Mrs. Sk.Unnisha Begum, Assistant Professor at WISE college, has delivered a lecture on **ADVANCES IN RADAR SYSTEMS** as industrial level and this topic is very helpful for the students. Total 75 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives:

AESA radar technology employs new generation of Trans-Receive (TR) modules which are highly capable Software Defined Radios (SDR) that can also be used for radio communication with very high data rates. AESA radar is exceedingly being used for the upgrade and replacement of erstwhile radar technology.
