## ABOUT COLLEGE

**West Godavari Institute Of Science and Engineering**  
– A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

### Courses Offered:

**B-Tech**

**E.C.E**

**C.S.E**

**MECH**

**AI&DS**

**M.B.A**

## ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

## OBJECTIVES OF PROGRAM

Objectives of intellectual property refer to the purposes of protection granted to creators of innovative intellectual creations. Intellectual property (IP) rights serve the important purpose of ensuring that creators will be recognized for their efforts and protected from infringement. When they are sure that their works are protected, creators are more likely to come up with more new creations. As such, IP also helps to promote creativity and innovation. There are many different forms of IP, each of which is protected by a certain type of IP rights.

## Topics to be Covered:-

Copyright and rights related to copyright

The rights of authors of literary and artistic works (such as books and other writings, musical compositions, paintings, sculpture, computer programs and films) are protected by copyright, for a minimum period of 50 years after the death of the author.

Industrial property.

Industrial property can usefully be divided into two main areas:

One area can be characterized as the protection of distinctive signs, in particular trademarks (which distinguish the goods or services of one undertaking from those of other undertakings) and geographical indications (which identify a good as originating in a place where a given characteristic of the good is essentially attributable to its geographical origin).

## Program Objective:

Objectives of intellectual property refer to the purposes of protection granted to creators of innovative intellectual creations. Intellectual property (IP) rights serve the important purpose of ensuring that creators will be recognized for their efforts and protected from infringement. When they are sure that their works are protected, creators are more likely to come up with more new creations. As such, IP also helps to promote creativity and innovation. There are many different forms of IP, each of which is protected by a certain type of IP rights.

## Topic covered:

. Intellectual property rights are customarily divided into two main areas:

(i) Copyright and rights related to copyright

The rights of authors of literary and artistic works (such as books and other writings, musical compositions, paintings, sculpture, computer programs and films) are protected by copyright, for a minimum period of 50 years after the death of the author.

Also protected through copyright and related (sometimes referred to as “neighbouring”) rights are the rights of performers (e.g. actors, singers and musicians), producers of phonograms (sound recordings) and broadcasting organizations. The main social purpose of protection of copyright and related rights is to encourage and reward creative work.

(ii) Industrial property.

Industrial property can usefully be divided into two main areas:

One area can be characterized as the protection of distinctive signs, in particular trademarks (which distinguish the goods or services of one undertaking from those of other undertakings) and geographical indications (which identify a good as originating in a place where a given characteristic of the good is essentially attributable to its geographical origin).

The protection of such distinctive signs aims to stimulate and ensure fair competition and to protect consumers, by enabling them to make informed choices between various goods and services. The protection may last indefinitely, provided the sign in question continues to be distinctive.

Other types of industrial property are protected primarily to stimulate innovation, design and the creation of technology. In this category fall inventions (protected by patents), industrial designs and trade secrets. The social purpose is to provide protection for the results of investment in the development of new technology,

## ABOUT COLLEGE

**West Godavari Institute Of Science and Engineering**  
– A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

### Courses Offered:

B-Tech  
E.C.E  
C.S.E  
MECH  
AI&DS  
M.B.A

## ABOUT PROGRAMME

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

## OBJECTIVES OF PROGRAMME

Management of education on refers to the organization and allocation of all operations and resources related to education. However, management of education also requires leadership. It covers the entity of structures, regulations and procedures, the management and decision-making processes of education, roles and responsibilities and pedagogical management. Pedagogical management refers to the management of teaching and learning and its key areas include curriculum work, teaching staff's competence and its development, teaching and learning resources as well as support and promotions of the students learning.

  
Principal  
West Godavari Institute of  
Science & Engineering (WISE)  
Prakasaraopalem

## Topics Covered:-

The teachers participation in managing education by taking responsibility for the development of the contented and pedagogies of their teaching the studies they are in charge of and their own competence. The teacher take part in the curriculum work as well as the evaluation and development of operations in accordance with the practices of curriculum work and the feedback system and while acting as a member of a competent body or a work group. Teaching development work embedded in the education in collaboration with their colleagues. High quality management of education stems from the accountability and co operation of everyone involved in teaching. Committed teachers developing continuously their work deserve committed actors in the management of education to support their work.

## ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

## OBJECTIVES OF PROGRAM

Machine learning is a method of data analysis that automates analytical model building. It is a branch of artificial intelligence based on the idea that systems can learn from data, identify patterns and make decisions with minimal human intervention. If you're working with machine learning and deep learning projects, there are thousands of Python libraries to choose from, and they can vary in size, quality, and diversity. Here is a curated list of the best Python libraries to help you get started on your machine learning journey. This list is based on popularity, derived from their reputation among Python library users.

  
**Principal**  
West Godavari Institute of  
Science & Engineering  
Avapadu, Prakasaraopalem  
W. G. I. E.

## Topics to be Covered:-

- Introduction to Machine Learning, Issues and Case studies, Descriptive statistics and Inferential statistics which is most essential for any learning algorithms. The last session covers Introduction to Python and problem solving in python.
- problem solving using python followed Hackathon in Python using Xobin bootcamp online platform
- Pandas for handling real dataset, Numpy for using mathematics library and Matplotlib for visualization using Jupyter notebook
- Randomized Algorithms for predictions, Binarization of the dataset, Confusion matrix and performance metrics for predictions like precision, accuracy and recall
- Linear regression, logistic regression and Multivariate regression for Raw Datasets and Actual data sets.

**A ONE WEEK FACULTY DEVELOPMENT  
PROGRAM ON** Advances in Electronic  
Device Modeling and Simulation Studies

### Program

13-06-2022 to 18-06-2022

Organized by

**ELECTRONICS AND COMMUNICATION  
ENGINEERING DEPARTMENT**

Venue:

**West Godavari Institute of Science and  
Engineering**

(Approved by AICTE -New Delhi and Affiliated to JNTU - Kakinada)

**An ISO 9001 - 2008 Certified College**

**AVAPADU, PRAKASARAOPALEM - 534112, Nallajerla  
Mandal, E.G.Dist. (A.P.)..**

## ABOUT COLLEGE

**West Godavari Institute Of Science and Engineering**  
– A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

### Courses Offered:

**B-Tech**  
**E.C.E**  
**C.S.E**  
**MECH**  
**AI&DS**  
**M.B.A**

## ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

## OBJECTIVES OF PROGRAM

Electronics & ICT Academy &quot; was set up at NIT Warangal with financial Assistance from MeitY, GoI. The jurisdiction of this academy is Telangana, Andhra Pradesh, Karnataka, Goa, Pondicherry and Andaman & Nicobar Islands. This academy role is to offer faculty development programmes in standardized courses and emerging areas of Electronics, Information Communication Technologies, training & consultancy services for Industry, Curriculum development for Industry, CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities. As part of an initiative, a Faculty Development Programme (FDP) on "ADVANCES IN ELECTRONIC DEVICE MODELING AND SIMULATION STUDIES" is being conducted by Department of ECE at Matrusri Engineering College, Saidabad, Hyderabad to the faculty of Engineering college and other allied

Principal  
West Godavari Institute of  
Science & Engineering (WISE)  
Avapadu, Prakasaraopalem  
W. G. Dt. (A. P.)

## Topics to be Covered:-

- Basics- Modelling and Simulation
- Trends in VLSI
- CMOS VLSI Building Blocks & Design Issues
- Analog Design, Analog Layout issue & Challenges
- Low power Design Concepts & Introduction to Functionality of simulator
- A review on MemOristors
- MOSFET Scaling – Issues & Solutions, Double-gate MOSFET Modeling
- Research – FinFET & NWFET

disciplines in India. Industry personnel working in the concerned /allied discipline can also attend. The FDP covers recent trends in Semiconductor Devices and provides an insight knowledge in research topics with solutions.

## Topics Covered:

- Basics- Modelling and Simulation
- Trends in VLSI
- CMOS VLSI Building Blocks & Design Issues
- Analog Design, Analog Layout issue & Challenges
- Low power Design Concepts & Introduction to Functionality of simulator
- A review on MemOristors
- MOSFET Scaling – Issues & Solutions, Double-gate MOSFET Modeling
- Research – FinFET & NWFET

**Faculty response:** All the faculty are impressed with the new advancement in the surveying techniques and forward to learn the total station and enthusiastic to teach the students about these new techniques.
