ABOUT COLLEGE

West Godavari Institute Of Science and Engineering – A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

Courses Offered:

B-Tech

E.C.E

C.S.E

MECH

AI&DS

M.B.A

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

OBJECTIVES OF PROGRAM

Employing AI and machine learning (ML) algorithms in VLSI design and manufacturing reduces the time and effort for understanding and processing the data within and across different abstraction levels via automated learning algorithms. It, in turn, improves the IC yield and reduces the manufacturing turnaround time.

Topics to be Covered:-

- Linear Algebra Refresher
- Probability Theory Refresher
- Digital Signal Processing Refresher
- Machine Learning basics
- Probability Models and Expectation Maximization Algorithm
- Neural Networks and Deep Learning
- ML for Audio Classification
- ML for Speech Recognition
- ML for Music Information Retrieval
- ML for Image Processing
- ML for Communication

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

OBJECTIVES OF PROGRAM

Modern accounting does not change the underlying principles
or concepts of accounting. However, it does transform the
method of capturing, processing, and verifying accounting
information. It utilizes advanced digital capabilities and integrated software programming to achieve maximum efficiency and
accuracy.

Topics to be Covered:-

An accounting method refers to the rules a company follows in reporting revenues and expenses. The two primary methods of accounting are accrual accounting (generally used by companies) and cash accounting (generally used by individuals). Cashaccounting reports revenues and expenses as they are received and paid through cash inflows and outflows; accrual accounting reports them as they are earned and incurred through sales
and purchases on credit and by using accounts receivable &
Accounts payable. Generally accepted accounting principles (GAAP) requires accrual accounting.
