ABOUT COLLEGE

West Godavari Institute Of Science and Engineering - A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

Courses Offered:

B-Tech
E.C.E
C.S.E
MECH
AI&DS
M.B.A

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars, conferences /workshops

OBJECTIVES OF PROGRAM

Pedagogy can mean the study of the theory and practice of education but it can also refer to teaching children in a personal, holistic way. In the latter sense pedagogy might be regarded as art of bringing up and offering basic education to children.

Topics To Be Covered:-

The learning activities that support the unit of content the instructional approach such as active learning, constructivist model student-to-student engagement teaching to multiple learning style, varieties of assessment.

ABOUT COLLEGE

West Godavari Institute Of Science and Engineering

- A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

Courses Offered:

B-Tech

E.C.E

C.S.E

MECH

AI&DS

M.B.A

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

OBJECTIVES OF PROGRAM

The word "Pedagogue" means "a teacher or a master." Teaching is one of the essential aspects of education, and we know that excellent teachers make the best citizens in the future. So, pedagogy is the apt word that defines the study of teaching. It also describes how content is presented and delivered to students in the educational sector.

Different teachers use different methods for teaching. But, the aim of education is the same for all. Teachers should ensure that students grasp the topics and are ready for exams. Also, some teaching habits help students develop critical thinking and problem-solving skills. So, education has a longtime impact on the life of students.

Let's explore what pedagogy in education is and how it improves the quality of teaching of

Cell: 9951277789, E-mail: principal.wise@gmail.com , website : www.wise.ac.in

Outcome Of The Program :

Pedagogy in education comprises methods that matter in shaping teaching and learning processes. It sidesteps the complex teaching style of traditional methods and makes way for educators to help students understand things better.

Our modern society demands new ways of teaching and learning. Schools should use the latest tools to encourage pedagogy in teaching. One such tool is Edisapp. It is a complete school management app developed by Eliot technologies. It helps you manage all school activities online. This app has all new features that improve the quality of your education system

ABOUT COLLEGE

West Godavari Institute Of Science and Engineering
- A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasaraopalem, Tadepalligudem

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

Courses Offered:

- B-Tech**
- E.C.E**
- C.S.E**
- MECH**
- AI&DS**
- M.B.A**

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars, conferences, workshops

OBJECTIVES OF PROGRAM

AI techniques are widely used for many applications such as Biometrics, Medical Imaging Processing, Natural Language Processing, and so on. This course will give the basics of AI concepts with applications to Computer vision. It will help to upgrade the expertise and capabilities of the faculty members of various engineering institutions in India and will generate a climate for research and enthusiasm for academic excellence. The objective of the course work is also to provide the theoretical fundamentals coupled with practical knowledge of Artificial Intelligence

Topics to be Covered:-

- Introduction to Artificial Intelligence
- Supervised, and Unsupervised Learning
- Statistical Pattern Recognition: Bayes Decision Theory.
- Classification and Regression
- K-means Clustering
- Introduction to Neural Network
- Feed Forward Neural Networks.
- Multilayer Perception and Back-propagation
- Introduction to Deep Learning
- Applications in Medical Image Processing, Biometrics and NLP

ABOUT COLLEGE

West Godavari Institute Of Science and Engineering

A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 on a sprawling lush green 14 acre campus at Prakasara-palem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, bestowing their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul.

Courses Offered:

B-Tech

E.C.E

C.S.E

M.ECH

AI&DS

M.B.A

ABOUT PROGRAM

It is a one week offline faculty development program.

The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops.

OBJECTIVES OF PROGRAM

Automotive technology is the thrust area where leaps of changes being made for improving the overall

efficiency of a vehicle. Electric vehicles technology has gained focus of the researchers and industry in recent times. Electric vehicles are expected to increase from 2% of global share in 2016 to 22% in 2030. In this context, it is imperative that we, as engineers and academicians, become well versed in the art of

designing and developing EV technology. Currently, the technology is focusing on many new areas like engines and alternative fuels, vehicle safety, advanced electric propulsion, energy storage system, intelligent transportation and vehicular communication systems, autonomous vehicles, vehicle electrification, hybridization, improved battery managements systems and new battery chemistries. The automotive industries are in line with these technological changes. Also, in the current era, computational intelligence and optimization techniques have been employed in various applications of non-conventional energy systems for maximum power extraction.

Topics to be Covered:-

After the completion of FDP, the participants can
Create an awareness of the need and importance of Sustainable technology.

Impart knowledge and develop skills in diverse training methods in imparting training to students and research scholar.

Plan curriculum that can include the skills and competencies to achieve goals, have a positive attitude and can cope with the changing times.

Develop with a technical and professional mindset, Faculty

PROGRAMME REPORT

Name of the Program	A One week Faculty Development Program On Power Electronics Energy Storage & Renewable Technologies
Date of the Program	19.11.2018 to 24.11.2018.
Resource person details	G Sri Lakshmi, Associate Professor, Helapuri engineering college Eluru . Contact number 7013881287 .Email: 8sriluc@gmail.com
Program Convener	Mr. K HEMANTH SRINIVAS
Program Coordinator	Mrs.LAVANYA NANDYALA
Organized By	Department of Electrical and Electronics Engineering
Venue	West Godavari Institute of Science and Engineering College

Program Objective:

Power Electronics, Energy Storage and Renewable Technologies (PEESRT) for E-

Transportation in India This FDP is designed to address research advancements in Power conversion topologies and applications in the industry and to encourage various zonal professionals/students/academicians towards research and for their Academic Quality Improvement too. This course will offer a unique opportunity to all the participants in the relevant topics in Real Time Power Electronic systems and its applications through theoretical sessions and simulation plus laboratory-based experiments and demonstrations. It is due to development of switching devices, magnetic components, control techniques, computational methods, DSP/FPGA controllers, etc. Applications of power electronics can be found in several areas like industry, transportation, medical, telecommunication, residential, energy systems, etc. Certain low and high power switching converters are developed in these areas. Also, this FDP aims at giving scope for future research.

Objectives and context: Automotive technology is the thrust area where heaps of changes being made for improving the overall efficiency of a vehicle. Electric vehicles technology has gained focus of the researchers and industry in recent times. Electric vehicles are expected to increase from 2% of global share in 2016 to 22% in 2030. In this context, it is imperative that we, as engineers and academicians, become well versed in the art of designing and developing E.V technology. Currently, the technology is focusing on many new areas like engines and alternative fuels, vehicle safety, advanced electric propulsion, energy storage system, intelligent transportation and vehicular communication systems, autonomous vehicles, vehicle

electrification, hybridization, improved battery managements systems and new battery chemistries. The automotive industries are in line with these technological changes. Also, in the current era, computational intelligence and optimization techniques have been employed in various applications of non-conventional energy systems for maximum power extraction.

This FDP intended to address the uncertainties and challenges in EV and associated technologies through knowledge and information exchange. This in due course will lead to acquiring deep knowledge in the development and implementation of low-cost and eco- friendly electric mobility and charging systems. The academia is yet to change its curricula to cope up with these rapid changes in the technology. The gap between the academia and industry might be reduced by arranging some workshops/ FDP programs to faculty by industry experts in relevant areas. The main aim of this FDP is to expose the faculty to new developments in the above areas of technology and the same may be imparted in the student community.

Benefits to Faculty:

This FDP aims at equipping the faculty with skills and knowledge that are essential for inculcating moral values in students and guiding and monitoring their progress towards professional career. From this FDP, faculty learn present technologies in the areas of renewable energy, electric transportation, power electronics, electric drives, control techniques, smart grids, communication protocols, intelligent charging infrastructure, IoT, artificial intelligence, machine learning, deep learning and standards. In view of changing scenario under sustainable energy and electric transportation, this FDP aims to put together the speakers from these areas to disseminate their knowledge and experience for the listeners to work in years to come. It will provide an interactive forum for discussion on recent and on-going developments, key issues and challenges, and practices.

Programme Outcome:

After the completion of FDP, the participants can

- Create an awareness of the need and importance of Sustainable technology.
- Impart knowledge and develop skills in diverse training methods in imparting training to students and research scholar.
- Plan curriculum that can imbibe the skills and competencies to achieve goals, have a positive attitude and can cope with the changing times.
- Develop with a technical and professional mindset, Faculty

Faculty Response: All the faculty are impressed with the new advancement in the surveying techniques and forward to learn the total station and enthusiastic to teach the students about these new techniques.

ABOUT COLLEGE

West Godavari Institute Of Science and Engineering
- A modern temple of learning, an offshoot of the Sri Krishna Environmental and Educational Society was established in the year 2008 in a sprawling, lush green 14-acre campus at Prakasamapalem, Tadepalligudem.

The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition.

West Godavari Institute of Science and Engineering promotes and nurtures the talents of its students. We emphasize growth as a whole person comprising the Body, Mind & Soul

Courses Offered:

B-Tech
E.C.E
C.S.E
MECH
AI&DS
M.B.A

ABOUT PROGRAM

It is a one week offline faculty development program. The program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research and also to participate in seminars /conferences /workshops

OBJECTIVES OF PROGRAM

The objective of this programme is to unite practitioners, researchers And people from industry to discuss the progress on state-of-the-art research and the practical usage of

Block chain technologies, focusing on the application and the technologies relying on it. Specifically, this FDP is to promote discussion on theory, progress, development, deployment and the practical usage of Block chain technologies with respect to cyber security. This course designed with the state-of-the-art concepts of Block chain technology that comprises of Theory as well as hands-on sessions in the area of Cyber Security and Block chain System. Half of the Course is designed for theory, use-case demonstrations, and research oriented discussions, which will be helpful in understanding the process, and the remaining 50% course for practical Implementation (hands-on). In brief this FDP covers Introduction to Block chain Theory- Distributed

Topics to be Covered:-

Block chain Theory-Distributed Ledger Technologies (DLT)
Permission and Permission less Block chains
Model, framework, and mechanism in designing block chain Block chain
Network and architecture design
Consensus protocols for block chains Peer-to-Peer Networks, Peer-to-Peer communication
Protocols Cyber-attacks to block chain
Insider Threats- Case studies (e.g., of adoption, attacks, forks, scams etc.)
Cryptographic algorithms and protocols Security and reliability in Block chain
Privacy and trust in block chain Security related issues in block chain
Internet of things (IoT) and block chains

PROGRAMME REPORT

Name of the Program	A One week Faculty Development Program On BLOCK CHAIN TECHNOLOGY
Date of the Program	18-06-2018 To 23-06-2018.
Resource person details	Dr. K RamachandraRao, Professor, Shri Vishnu Engineering College for Women, Bhimavaram, Contact No.9885911212.
Program Convener	Mr. V.N.S. GANAPATHI RAM
Program Coordinator	Mrs. CH.N.P.LATHA
Organized By	Department of Computer Science Engineering
Venue	West Godavari Institute of Science and Engineering College

Objective of the program : The objective of this programme is to unite practitioners, researchers And people from industry to discuss the progress on state-of-the-art research and the practical usage of Block chain technologies, focusing on the application and the technologies relying on it. Specifically, this FDP is to promote discussion on theory, progress, development, deployment and the practical usage of Block chain technologies with respect to cyber security. This course designed with the state-of-the-art concepts of Block chain technology that comprises of Theory as well as hands-on sessions in the area of Cyber Security and Block chain System. Half of the Course is designed for theory, use–case demonstrations, and research oriented discussions, which will be helpful in understanding the process; and the remaining 50% course for practical Implementation (hands-on). In brief this FDP covers Introduction to Block chain Theory-Distributed Ledger Technologies (DLT), Permission and Permission less Block chains, Model, framework, Block chain Network and architecture design, Block chain consensus and fault tolerance mechanisms, Block chain Test-beds, platforms and simulations, Applications using or built on top of block chains, Cryptographic Algorithms and protocols, Security and reliability in Block chain, Privacy and trust in block chain, Block chain applications in areas such as Internet of Things (IoT), IoT & block chains.

WEST GODAVARI INSTITUTE OF SCIENCE AND ENGINEERING

(Approved by AICTE –New Delhi and Affiliated to JNTU – Kakinada)

An ISO 9001 – 2008 Certified College

AVAPADU, PRAKASARAOPALEM – 534112, Nallajerla Mandal, W.G.Dist. (A.P.).

Cell: 9951277789, E-mail: principal.wise@gmail.com , website : www.wise.ac.in

Topics Covered:

- Block chain Theory-Distributed Ledger Technologies (DLT)
- Permission and Permission less Block chains
- Model, framework, and mechanism in designing block chain Block chain
- Network and architecture design
- Consensus protocols for block chains Peer-to-Peer Networks, Peer-to-Peer communication Protocols Cyber-attacks to block chain
- Insider Threats- Case studies (e.g., of adoption, attacks, forks, scams etc.)
- Cryptographic algorithms and protocols Security and reliability in Block chain
- Privacy and trust in block chain Security related issues in block chain
- Internet of things (IoT) and block chains

Faculty response: All the faculty are impressed with the new advancement in the surveying techniques and forward to learn the total station and enthusiastic to teach the students about these new techniques.

Ch. N. P. Datta
Program Coordinator .

Programme Report

Name Of The Programme	"A one day training programme On MS EXCEL"
Date Of The Programme	18.10.2018
Resource Person Details	A TECH COMPUTER SOLUTION TADEPALLIGUDEM WEST GODAVARI
Programme Coordinator	RAM GANESH
Organized By	CSE DEPARTMENT
Venue	West Godavari institute of science and engineering college

Programme Objective:

Microsoft Excel is a spreadsheet programme included in the Microsoft office suite of application. Spreadsheets will provide you with the values arranged in rows and columns that can be changed mathematically using both basic and complex arithmetic's operations .In addition to the standard spreadsheets features Excel offers programming support via Microsoft Visual Basic Application (VBA),the ability to access data from external sources via Microsoft's Dynamic Data Exchanging(DDE).Microsoft Excel is an electronic spreadsheet computer programme.

Topic covered:

Creating effective spreadsheets Managing large sets of data mastering the use of some Excel's most popular and highly sought after functions Create dynamic report with Excel pivot tables Unlock the power and versatility of Microsoft Excel's adding powerpivot Audit Excel Worksheet formulas to ensure clean formulas.

Faculty response:

All the faculty are very interested about the techniques and also got awareness about the basic and critical problems that will be faced in both design and practical at construction sites.
